

FAQs DSS 2.0

What's the biggest size DSS cabinet available?

We suggest that the maximum useful size is 1m square.

Is DSS available in non -standard sizes?

Yes DSS can be made to special sizes by quotation.

Is DSS available in special colours?

Yes DSS can be painted in any standard RAL colour by quotation.

Can DSS be made with an acrylic face instead of a glass face?

No, the glass forms part of the structural integrity of the frame.

Is DSS suitable for external use?

Yes, DSS can be used out doors or indoors. The outdoor version has an additional rubber gasket to keep moisture out; you need to tell us in advance if you want to use DSS outdoors.

Can I get a replacement key?

Yes replacement keys for the barrel locks are available at an additional charge.

Can DSS cases be mounted onto posts?

Yes, we can supply special fixings and backs to allow DSS to be post mounted.

Can a DSS case be mounted into a recess in a wall?

Yes, you need to allow a 10mm gap all the way around, to allow the door to open.

Can DSS cases be hinged along the top or bottom?

No, the case is designed to hinge along the right or left edge.

What happens when the LED unit finally needs to be replaced?

Replacement light units are available and can be slotted into an existing DSS Case.
