

## FAQs Vertico

What's the biggest size Vertico cabinet available?  
The maximum size is to fit an A0 poster

Is Vertico available in non-standard sizes?  
Yes, Vertico can be made to special sizes by quotation.

Is Vertico available in special colours?  
Yes, Vertico glass can be printed in any standard RAL colour by quotation.

Can Vertico be made with an acrylic face instead of a glass face?  
No, the glass forms part of the structural integrity of the frame.

Is Vertico suitable for external use?  
Yes and no, the standard specification of Vertico is suitable for internal use only. There is a hybrid version of our DSS 2.0 case, with a Vertico face available, which is suitable for external use. Please contact us for more information.

Can Vertico be locked with a conventional lock?  
Yes, Vertico can be locked using a mini barrel lock, fixed through the face of the glass. However, all Vertico are fitted with a hidden catch, which secures the case in a closed position. This is suitable for most customers security needs.

Can I get a replacement key?  
Yes replacement keys for the barrel locks are available at an additional charge.

Can a Vertico case be mounted into a recess in a wall?  
Yes and no, the standard specification of Vertico is not suitable for recessed mounting, as the door has to slide freely down and up. There is a hybrid version of our DSS 2.0 case, with a Vertico face, which can be recessed. You need to allow a 10mm gap all the way around, to allow the door to open. Please contact us for more information.

Can Vertico cases slide from side to side?

No, the counterbalance springs only work when mounted vertically.

What happens when the LED unit finally needs to be replaced?  
Replacement light units are available and can be slotted into an existing Vertico Case.
